

Give help, share hope, save lives!

GIVE LIFE TODAY

In this season of thankfulness, perhaps the one gift we can all be most grateful for is the gift of life.

That's why it's so critical that you continue to stand with Life Network as, together, we save lives.

Your generosity will go to work where it's needed most to bring help and hope to women facing unplanned pregnancies.

Here's what your generosity today will provide: free pregnancy tests and life-revealing ultrasounds . . . compassionate support throughout the pregnancy . . . and so much more.

Please give today. Your generosity will share the love, support and hope that lead to even more saved babies. Thank you!

You save even more lives when you give monthly!

Right now, there is an abortion-minded woman in our community desperately looking for answers.

It's the members of our Partners for Life team who give this woman a free ultrasound today and ongoing support tomorrow. This monthly support transforms her life and saves her baby's life. And it doesn't stop there.

Your monthly support . . .

. . . reaches abortion-minded women searching for help online.

. . . provides life-revealing, life-saving ultrasounds.

. . . shares the gospel.

. . . offers parenting coaching until the baby turns two.

. . . provides cribs, car seats and other practical resources.

If you are already a monthly partner . . . thank you! If you aren't, will you consider becoming one today? With each monthly gift, you'll help ensure that every patient who comes to us can hear about the value of their life — and the life of the child inside them.

To join our Partners for Life team — or to increase your current partnership — complete the enclosed reply form and mail it back with your gift. OR, even easier, you can go online right now at eLifeNetwork.com/Give-Monthly. Thank you!

THE NEWSLETTER OF LIFE NETWORK

"I saw my baby's beating heart . . ."

What started with an Internet search for at-home abortions ended with a beautiful baby — thanks to partners like you!

In the Google age, finding a solution to desperation often starts with an Internet search.

Sadly, for women who face an unplanned pregnancy, the Internet actually has information on at-home abortions using the abortion pill.

Ronnie (not her real name) couldn't afford an abortion, so she was determined to find a way out of her terrible predicament. She didn't want to be — *couldn't be* — a mother. Not then. The Internet

seemed to be a good place to find answers.

Thankfully, Ronnie gave up on the Web and was soon sitting with a patient advocate. Receiving confirmation of her pregnancy was her worst nightmare. She sat there, shaking her head, as she listened to her options.

Ronnie showed no emotion as she saw her seven-week-old baby's beating heart on the ultrasound. The patient advocate's heart sank as Ronnie

Your prayers and partnership SAVE LIVES. Thank you for your support!

Thanks for caring about women like Ronnie!

(Continued from cover)

confirmed that nothing would change her mind about going through with the abortion.

But then something miraculous happened.

On the drive home, Ronnie couldn't stop thinking about her baby moving around on the ultrasound. Just as the baby had moved on-screen, God was moving in her heart.

Ronnie says, "I left the pregnancy center, and I prayed to the Lord to show me the way. The Lord spoke to me in a dream, and it felt so real. I knew God wouldn't leave me.

And I knew He blessed me with picking me to be my child's mother. I ended up not taking that at-home remedy abortion."

Ronnie says, "I said to myself, *How selfish could I be? I made this baby. It's growing inside me already. It has a*

heartbeat and already loves me without even knowing me. How could I ever live with the thought of ending a life?"

As it turns out, the young woman who never wanted to be a mother is now just that. Today she beams with joy and embraces her greatest title: *Mom.*

"I'm so thankful to the pregnancy center for all their help."
— RONNIE

"I look at my baby today and I am the happiest I've ever been," she says. "I'm so thankful to the pregnancy center for all their help."

Right now, many more women in our community face the same heart-wrenching decision that Ronnie did. But through your prayers and financial partnership, they can find the support they need to choose life. Thank you!

Supporting Anna through the years — with no judgment or arm-twisting — earned her trust

My name is Anna. My first experience with the center was when I was just 15 and pregnant with limited resources. I went there and met with the patient advocate, who became someone I could confide in. I decided that I simply was not ready to become a mom.

While in my first year of college at 18, I became pregnant again and returned to the center, where I felt comfortable.

They again welcomed me back with open arms, never judged me and always supported me. I decided to terminate the pregnancy because I still was not ready to become a mom.

Last year, I returned to the center again. I was pregnant and needed support, even as an adult. I went to the only place I knew would help me and help me make the right decision.

I met with the patient advocate. I remember seeing my baby's heartbeat and thinking, *This time, I can't let that little heartbeat stop. I have to do everything in my power to keep it beating.*

From that moment, I decided to keep my baby. It has been the best decision I've ever made.

The patient advocate has provided me with the resources I needed in my time of greatest need. They have welcomed and nurtured me. They have helped me cope when I was in grief as well as stood by me and supported me when I finally felt ready to become a mom.

I truly am grateful for this organization and the services they provide. They're an amazing organization and staff.

Please join us in prayer for . . .

Good health for our moms and their preborn babies.

Guidance for our marketing strategies in an anti-life culture.

Wisdom for new moms and dads in our parenting programs.

Our clients to have open hearts as we share the gospel.

RICH'S MESSAGE

You're changing lives today, and saving future generations

RICH BENNETT
President | CEO

One of the blessings of wearing past Walk for Life t-shirts or other Life Network items are the conversations that can result.

I was at a local gym when a man came up to me. "Nice shirt," he said, pointing to my Walk shirt. As we talked, he shared his name was Gary, and that he'd recently retired. I shared with him that I had the privilege of leading Life Network.

He suddenly became very serious and put his hand on my shoulder.

"I want you to know, my wife and I have a granddaughter because of you," Gary said through tears. "I'm forever grateful for what you do."

As Life Network celebrates 40 years of generational impact, I hope you realize that when grandparents like Gary share that they have a grandchild because of you, they mean . . . YOU.

It's such an encouragement that you choose to be part of the compassionate family that makes this work possible. What a blessing to be able to count on you.

Thank you for your prayers and partnership!
